

## Broadcom Virtual Mainframe Technical Exchange 2025

Tuesday, June 24

	Foundations	New to Mainframe	AIOps and Automation	Data Management (Db2/IMS Tools, Storage & Output Management)	Data Management (Databases)	DevOps	Open Mainframe	Security	Workload Automation
9:00 - 9:50amET/2pm UK/3pm Prague (CET)	<b>FDN01: Opening Keynote: What's Next? Trends that Will Shape the Mainframe – by 2028</b>								
10:00 - 10:50amET	FDN02: Welcoming the Next Generation of Mainframe Developers: Lessons Learned to Optimize Your Success	NTM01: Maximizing Value with the Mainframe Expert Program and Open Solutions	AIA02: Mainframe Essentials: Tools You Can Use at No Extra Charge	DMT01: Enterprise Resilience: The 15-Minute Recovery Framework for Critical Data	DBM05: You're Going to Do What? IDMS New Innovations Under Consideration	DEV01: DevX & DevOps Enable Business Agility	OMF01: Publishing Mainframe Reports Made Easy with Python + Zowe	SEC01: Securing What's Next: Winning in a World of Relentless Threats	WLA01: Troubleshooting Workload with ESP Web UI
11:00 - 11:50amET	FDN03: Generative AI as a Critical Technology for Application Understanding and Impact Analysis	NTM02: ABCs of IPLs: Easy as SYS1, 2, 3	AIA06: Ansible-Driven Automation Made Easy with OPS/MVS and Zowe	DMT02: Output Transformation: Automation Strategies that Drive Efficiency and Innovation	DBM06: Datacom Strategy, Roadmap, Customer Themes and Best Practices	DEV02: Bringing the Development Experience to the Next Level with Code4z and VS Code	OMF03: Unlocking Database Insights at NatWest: Empowering Database Administrators with SYSVIEW for Db2, Prometheus, and Grafana	SEC03: Future-Proofing Mainframe Security: The Role of PAM, MFA, and SSO	WLA06: Introduction to CA 7: A Beginner's Guide to Mastering the Basics

Wednesday, June 25									
8:00 - 8:50amET/1pm UK/2pm Prague (CET)	FDN04: PDSMAN How Active Directory Lookaside Improves Member Access Time	NTM03: Slaying the Certificate Hydra: A Practical Guide for Mainframe Practitioners	AIA04: Automation and Performance Products Update	DMT06: Personal Experience: 40 Years of Battle Scars from Managing Db2 for z/OS	DBM01: How Colruyt Harnessed the Power of IDMS APIs and Performance Metrics to Enhance the User Experience	DEV05: Gen for the Next Generation: Leveraging VS Code to Simplify Your Gen Development Needs Into the Future	OMF02: Achieve a Quick Win and Boost Productivity by Enhancing your Mainframe CI-CD Pipeline with Endeavor	SEC09: Introducing Compliance Event Manager 7.0, the Next Generation of Continuous Monitoring	WLA08: Observability with CA 7 OpenTelemetry
9:00 - 9:50amET	FDN05: Discover a New Level of Security Through an Open z/VM Architecture	NTM04: Automating Mainframe Tasks with OPS/MVS and VS Code: A Hands-On Lab (BYOD)	AIA01: SYSVIEW Tips and Tricks	DMT04: What's New for Db2 Tools: Updates from the Lab and a Preview of the Next Year	DBM07: Modernize Datacom DDL: Big Changes, Big Improvements	DEV10: Developing API Solutions for Business Agility and Innovation	OMF06: Harnessing the Power of Mainframe REST APIs for Modernization	SEC04: Accelerate Compliance With Security Insights and CIA	WLA03: ESP Advanced Techniques for the Scheduler Persona
10:00 - 10:50amET	FDN06: Improve Resource Utilization and Enhance the User Experience of a Session Manager (TPX)	NTM05: Back to Basics: Db2 Backup and Recovery Zero to Hero	AIA10: OPS/MVS Tips and Tricks	DMT05: Overcome z/OS Batch Resiliency Challenges in a Db2 Environment	DBM04: IDMS Reporting - Who's the Culprit?	DEV09: Transforming Change Management: Endeavor Meets Modern DevOps Tools	OMF07: Build Your First REST API App to Manage Started Tasks - We'll Show You How!	SEC05: Effortless Entitlement Cleanup: Implementing and Automating Broadcom's Cleanup for z/OS	WLA05: ESP Administrator Cookbook
11:00 - 11:50amET	FDN07: But I Don't Know VSE JCL	NTM06: Passing the Torch: Mentorship Models That Work on the Mainframe	AIA07: NetMaster: Tips and Tricks	DMT03: Unlock the Power of Real-Time Data with Vantage StoragePoint Features and Futures	DBM10: Setting Security with Datacom	DEV04: Platform Engineering Use Cases: The Self-Service Wave	OMF04: Why Are Just-out-of-college Students Training Mainframe Developers and Admins?	SEC07: Building External SAF Security Into Your Applications	WLA07: Introduction to CA 7's Reporting

Thursday, June 26									
8:00 - 8:50amET/1pm UK/2pm Prague (CET)	FDN08: What's New with XCOM: Modernizing Enterprise Data Transport	NTM07: Introduction to SYSVIEW Performance Management (BYOD)	AIA05: Curing Common Headaches for Mainframe Teams Using WatchTower	DMT08: Broadcom Db2 Tools: Strengthening Resilience under DORA	DBM03: New Strategies for IDMS Performance Tuning, Troubleshooting, and Optimization	DEV06: Customer Engagement: A DevX Modernization Story with Test4z	OMF05: VS Code - A Better Way to Develop & Maintain OPS/MVS Rules	SEC06: Which Vulnerability to Patch First?	WLA09: Introduction to CA 7's Automated Recovery Facility (ARF)
9:00 - 9:50amET		NTM08: Optimize Your Mainframe Support Experience	AIA03: From Ideas to Impact - What's New in WatchTower Real-Time Streaming	DMT09: Maximize ROI: Uncover the Full Potential of Broadcom's Db2 Performance Suite	DBM09: Improve Cost, Security, and Robustness by Moving from Datacom BDAM to VSAM	DEV03: Code Explanation with the Help of Generative AI Technology		SEC08: Unlocking New Possibilities with R17 for ACF2 and TSS	WLA02: ESP TCP/IP Security
10:00 - 10:50amET		NTM09: Decoding Zowe's API Mediation Layer	AIA09: Understanding the Value of Continuous Application Profiling	DMT07: You Can't Survive Without Log Analyzer: Db2 for z/OS Logging Basics and How Customers Solve Critical Business Challenges	DBM02: Partnering with You: IDMS User Association Community Update	DEV07: How to Apply DevOps Best Practices to Your Mainframe Application		SEC02: Compliance Made Simple: Meeting DORA requirements using Broadcom Solutions	WLA04: Unlocking ESP REST API Potential
11:00 - 11:50amET		NTM10: Discover Hidden Perks Behind Great Mainframe Strategy - It Starts Beyond Code	AIA08: Unlocking the Power of Application Tuning: A Real-World Success Story	DMT10: Broadcom Flexible Storage Suite: All Things Storage, Features and Futures	DBM08: Datacom Health Check Analyzer 2.x (with Brief HCA 1.1 Recap)	DEV08: Mainframe Application Development in Git: From Code Editing to Deployment		SEC10: Don't Leak Data! Ensure Secure Network Communication with ACF2 and TSS	WLA10: Modernize and Automate with CA 7 REST APIs – Use Cases & Details
